Please don't mistreat me, baby
For something somebody else has done
I know you're hurt and you're feeling crazy
But I know that you can be strong
'Cause your not the first
And you're not the last
To feel the pain that leaves no bruise
And I'm not the best
But babe, I'm not so bad
Come on and listen 'cause I'm talking to you

He must have hurt you, baby
But I swear that man is gone
But I know now if you come with me
That decision just can't be wrong
'Cause your not the first
And you're not the last
To feel the pain that leaves no bruise
And I'm not the best
But babe, I'm not so bad
Come on and listen 'cause I'm talking to you
