"Release"

Here we go again
The silence between us defends each other's fear, of a
broken heart
The awkward dance we do
The covered pain it shows through the damaging
moves we made from the very start
Now I wont be the blame
And maybe you wont feel the same
[chorus]
Here comes a release...again
So nice to to play pretend
This doesn't have to be love's end
Its more than you'll ever know
Lonely eyes I see looking back at me
This mirror hides the life we've never known
How did we get to this?
The absence of any bliss
I didn't know your hear was out on a loan
Its time we walked away
These are the hardest things to say

[chorus x2]
