Can you understand my feelings?
This unbearable feeling of meeting you.
The hard hope which has been in my heart.
Can you?

Give me your sense of the world
Give me a chance i would explain to you.
All the things that you make me like you.

And all along, you've been someone
who give hope to me
Even though you are not with me
I could feel your soul.

Your apperance changes my life
From a horrible girl to a nice girl
My life changed when looking at your face
even though i don't know you.

Cause the man who makes every girls heart beats fast
and slow
I wish i could be with you.
