[Siti Nurhaliza]

If we never make it back
To what we used to be
I hope you know i tried to give you all of me
I don't wanna wake up tomorrow
If our memories filled with sorrow
I'd rather smile when i remember you
If you find someone
That can love you right
I won't stand in your way
I won't even fight, no
I won't forget
I'll always remember you

[Sean Kingston]

Babygirl you are my darling
Felling you the hardest
Now my baby i've been missing you the longest
Found a new one to give your heart
To the way i acted i don't blame you
But you always on my mind
Think about you all the time
And i'm wishing you were mine
Reminiscing all the time, when i had your love
When i had your love you forever be in my heart
You'll always have my heart
You're everything i wanted
Exactly what i needed
I see your heart has now moved on
Got me sitting here i'm singing sad songs
I'm a love you forever
Baby i forget you never
January to december always remember you

[Siti Nurhaliza]

If you find someone
That can love you right
I won't stand in your way
I won't even fight,
No i won't forget i'll always remember you
Like the sun will rise

As the seasons change
I will walk through life
Til the very end, no i won't regret
I'll always remember you, remember you, remember you
I won't forget i'll always remember you
