If love is so easy, why do words come out wrong?
Cause I've been longing to tell you, its with you that I
belong.

I don't know much, but this much I know.

I have fallen in love, don't want to let this feeling go.

I'm helplessly, hopelessly falling, in love with you.

CHORUS

Let me be the one, let me show you how
How my heart was made for loving only you
You're my morning light, you're my dreams at night
You're my everything just let me be the one.

The beat of your heart, is like music to my soul
You're the piece i've been missing, you're the half that
makes me whole.

I'm helplessly, hopelessly falling, in love with you.

CHORUS

Let me be the one, let me show you how
How my heart was made for loving only you
You're my morning light, you're my dreams at night
You're my everything just let me be the one.

(Interlude)

Chorus x1 to finish...
