There's a whole lot of loving going on, in my heart  
It's a feeling, im feeling through and through  
There's a whole lot of missing every time we're  
apart  
There's a whole lot of loving just for you

Bigger than the Mississippi river near the ocean  
Wider than the desert and the Utah sky  
Stronger than the dynamos of hoover dam in motion  
... you supply the reason why

There's a whole lot of loving going on, in my heart  
It's a feeling, im feeling through and through  
There's a whole lot of missing every time we're  
apart  
There's a whole lot of loving just for you

Warmer than the sun that warms the corners of  
Kentucky  
Taller than the California redwood trees  
Richer than a 49er miner striking lucky he was never  
rich as me

There's a whole lot of loving going on, in my heart  
It's a feeling, im feeling through and through  
There's a whole lot of missing every time we're  
apart  
There's a whole lot of loving just for you

Like a highway that goes on and on, and never ends  
Like a fire that goes on and on and it never ends  
There's a whole lot of loving going on, in my heart  
It's a feeling, im feeling through and through  
There's a whole lot of missing every time we're  
apart  
There's a whole lot of loving just for you  
There's a whole lot of loving just for you
