[Music: E. Avila]

The night is falling  
And her wings reborn again  
Throw out and hife your bowels  
And become a bird  
Messenger of the evil, black magic carrier  
Server of the wizards  
Throw out and hide your bowels  
And become a bird

You will fly  
To be free for a moment  
But your past will be there  
Memories will come back  
Painful way to avoid real life  
Confront you past

Searching for calm  
You went to the place.  
Place where the wizards live,  
Wrong place, horror  
You will get tricky answers to your wishes  
You've got the power of flying  
Now you can evade you pain  
Throwing out and hiding you bowels  
Your are light,  
Now with your wings you reach the sky  
You are able to dream and live a different life  
You must pay  
For you illusion of being free  
Cry for help and forget the story  
You had your place but it's over  
You will be the betraged  
You will be the betraged by the wizards  
Wrong place, horror  
You will get tricky answers to your wishes  
You have got the power of...

[Solo: Both]

A wizard provoked the curse,

The sky invited you  
You entrails were stolen  
And the curse condemned you  
A bird you will be forever  
Now you will forget and you will be forgotten

A black wizard, the betrayed of your dream  
He will turn your dream into a dark nightmare  
A black wizard, the betrayed of your dream  
He will turn your dream into a dark nightmare

You wish to become human being again  
Face your present  
You'll never come back to normal life  
You wanted to forget for a moment  
But that moment turned into eternity

A black wizard, the betrayed of your dream  
He will turn your dream into a dark nightmare  
A black wizard, the betrayed of your dream  
He will turn your dream

You stormy end you will share  
You heart will find the rest  
You stormy end you will share  
You heart will find the rest!
