I see the wonder setting in
Over where I am going
And where I've been
And by the way when I kneel to pray
It never seems you're there
And I'll admit that I do not try
When it's easier to sit down and cry
I'm so full of doubt
Want to let it out
Let it out all over you

[Chorus]

On my circle of error
I go round and round
On my circle of error

I go round and round again

I'm running things into the ground
All the truth I am seeking has not been found
And I am weak
All the words I speak
Bring no passion anymore
And will I try for happiness
In the midst of all this emptiness
All I want is you
If I only knew
How to get up off this floor

[Chorus]
