Pull me under now
Lord I want to drown in your river
Take me over now
Lost in you I'm found now I surrender

Chorus:
Consume me, Lord
Every single thought
Consume me, Lord
'Cause you are all I've got
There's nothing here that I want more
Than to be consumed by you

I am reaching out
And I'm learning how to come closer
I can hear the sound
You're calling out to me to just surrender

Chorus:
Consume me, Lord
Every single thought
Consume me, Lord
'Cause you are all I've got
There's nothing here that I want more
Than to be consumed by you

You're calling me deeper with your every whisper
You're drawing me into you
Flood every part of my longing heart
'Til I'm consumed by you

Chorus:
Consume me, Lord
Every single thought
Consume me, Lord
'Cause you are all I've got
There's nothing here that I want more
Than to be consumed by you
Than to be consumed by you
