Standing here, staring at the sky
Sometimes I wonder why you chose to do this all for me
For me
I'm in awe, that the very Son of God
Would step into the void inside
This lost and lonely soul, oh
Just one word, and there was light

Chorus:
What it must be like
To see the world through your eyes
And to hear the prayers of the broken heart,
And be the breath of life,
Oh, what it must be like
To hold the stars in place
And your glory shines over all the earth
Forever you will reign
What it must be like

Everyday, I see the ending's grace
Every breath you've given me is just another chance
To realize
Your majesty reaches far and wide

Chorus:
What it must be like
To see the world through your eyes
And to hear the prayers of the broken heart,
And be the breath of life
What it must be like
To hold the stars in place
And your glory shines over all the earth
Forever you will reign

Your love for me
Yeah your love for me
It is wide, it is deep
And it's everything I need
Your love for me
Yeah your love for me
It is wide, it is deep

And it's everything I need

Chorus:

What it must be like

To see the world through your eyes

And to hear the prayers of the broken heart,

And be the breath of life

What it must be like

To hold the stars in place

And your glory shines over all the earth

Forever you will reign

What it must be like

What it must be like
