Can't pacify what your soul is denied with material
things now I know
Why you can look me in the eye with your plastic face
NAKED EYES-TEETH A GLEEM
I never wanted to be half as cool
If you only knew who were to be
So much for friends Hope you live life to the end
Cause you're too far gone to see.
No one to blame yeah it's always the same
You can find no fault with you
Soon you will see in your life with degree
If your dreams come true
Ken and YOU!-MALIBU!
