Memories are made with each moment saved  
Can't turn away from the past - afraid the future isn't  
to last  
You always gave me strength when I had nothing left -  
It all came true with time just had to wait a while  
There's so much more to see  
So much more of me

Remembering the times of days gone by gives us hope  
Come the morning light - you will fly high  
I promise you child, you'll go far darling

Remember all that we've been through just making it  
This far when we were young we all had the dream to  
be  
The one the shooting star - some still believe while  
others are gone  
There is so much more to see - so much more of me
