Watch out
It's coming for you
Stopping you cold
Making you blue
Watch your back
It's hunting you down
Hunting you through this sad world of ours

If it can bite, it's gonna bite back
If it can fight, it's gonna fight back
If it can bite, it's gonna bite back
If it can bite, it's gonna bite back

Look out
It's spying on you
Staring you down
Seeking a truth
Stand your ground
Don't give in
You're either in it to lose or win

If it can bite, it's gonna bite back
If it can fight, it's gonna fight back
If it can bite, it's gonna bite back
If it can bite, it's gonna bite back

It's gonna bite you back someday
It's gonna bite you back someday
It's gonna bite you back someday
You know what's coming your way

If it can bite, it's gonna bite back
If it can fight, it's gonna fight back
If it can bite, it's gonna bite back
If it can bite, it's gonna bite back
