I hope you choke

You lie your way around without any regard
Forget about those you needed to get by
Shoved the knife right into my back
Now I'd only wish that you would die
You thought you had us all fooled
You worthless fuck I hope you

Choke (choke)
Choke (choke)
Choke (choke)
Choke
Too worthless to bother to try
You aren't worth my time
But I hope you fucking die

I won't take your instigation
I won't take your blame
I won't deal with this dispute
I won't play your game

Cut all the ties and shut you out
Lost all respect for the glutton and greed
Sell out piece of shit trying to run your scheme
I won't be satisfied until you bleed
I'll shit and piss on your grave
You goddamn bastard go fucking

Choke (choke)
Choke (choke)
Choke (choke)
Choke
Too worthless to bother to try
You aren't worth my time
But I hope you fucking die

I won't take your instigation
I won't take your blame
I won't deal with this dispute
I won't play your game

It's frivolous at this point
No one's oblivious anymore
We've realized the only solution
And we're clawing for retribution

You useless cunt I hope you motherfucking
Choke
Choke (choke)
Choke (choke)
Choke
Too worthless to bother to try
You aren't worth my time
But I hope you fucking die

I won't take your instigation
I won't take your blame
I won't deal with this dispute
I won't play your game
