Cold reality's rude awakening  
It happens to everyone someday  
Sorrow set within I am  
Losing those I love

The circles of life draw to a close  
Last departure from this place  
Lost to time like everyone before

Someone's best friend died today  
He was one of mine  
Another driven down by the world  
Took his own life

The circles of life draw to a close  
Last departure from this place  
Lost to time like everyone before  
Goodbye  
I'll miss you  
It can't ever seem the same  
It can't ever seem the same

Wish you could have stayed longer  
Won't forget you were a brother  
Live on in memory forever  
In recollection you won't die

Goodbye  
I'll miss you  
It can't ever seem the same  
It can't ever seem the same  
Goodbye  
The circles of life draw to a close  
Last departure from this place  
Lost to time like everyone before  
Goodbye
