"Consent to Defeat"

Bowing like a servant
To the one who's in control
I lost the lead long before
Now I'm merely following
Listen to the words of caution
Let go before you've lost all you had
Dedication strangulation
Submit to the wrong way through again
Ruined

Danger's in the eyes of
He who's scared to go beyond
Only sense of comfort
In this sedative and yawn
First they come and then they go
Leave me dry and begging for a cure
Captivation self destruction
Beating at this thought until it's sore
Ruined

Find me in ruins
Find me in ruins
Find me in ruins

Swimming in circles
Don't know how to get away
Answering these needs in me
Giving in to make them wane
First they come and then they go
Leave me dry and begging for a cure
Self erosion dumb devotion
Searching for a feeling to be pure
Ruined

Find me in ruins
Find me in ruins
Find me in ruins
