It's going down
It's hit the ground
And it's all downhill from here
It's all over
It's all worn out
It's become your greatest fear

Down, down, down, down (Beaten down)
Down, down, down, down (Beaten down)

You've been broken
You've succumbed
You're all worn down and done
The wreck of you
The death of you
What have you become?

Down, down, down, down (Beaten down)
Down, down, down, down (Beaten down)
Down, down, down, down (Beats you down)
Down, down, down, down (Breaks you down)

The whole motherfucking world's out to break you
down
And trying to run is just useless now
Because you can't get out
You can't get out
You can't get out
You can't get out

Down, down, down, down (Beaten down)
Down, down, down, down (Beaten down)
Down, down, down, down (Beats you down)
Down, down, down, down (Breaks you down)
