I take away
When someone gives in
I find solace
Within cold steel pins
I know something
No one else will know
When they learn this
It's their time to go

Give me your pain
Give me all you're worth
Give me your problems
I'll make it worse

I will do shit
No one else will do
I may never
Find what bothers you
I can put up
With the world's weight
I am sick of
All the world's hate

Give me your pain
Give me all you're worth
Give me your problems
I'll make it worse

I hate everything you give to me
Is this all I am worth?
Fed by the needle that bleeds me
I can't get over what I've done to my life

Give me your pain
Give me all you're worth
Give me your problems
I'll make it worse
Give me your pain
Give me all you're worth
Give me your problems
I'll make it worse
