

## Skar "Interferences"

Visit "[Interferences](#)" on MotoLyrics.com

World in state of decay  
Staring in the face of distraction  
Things are always stuck in the way  
Shoved by all the phases and factions

Never subsides  
Never goes away  
Looming always near  
Intereferes with me

Depression and the guilt on the mind  
Ruining any chance at achievement  
When it can't get any worse  
There's always more shame and bereavement

Never subsides  
Never goes away  
Looming always near  
Intereferes with me

Interferences  
Get out of the way  
Interferences  
Interferences

Trying to she'd all of the thoughts  
Can't get it rid of this completely  
I won't let it kill me yet  
Can not let these things defeat me

Never subsides  
Never goes away  
Looming always near  
Intereferes with me

Interferences  
Interferences  
Interferences  
Get out of the way
