"Japan"

Visit "[Japan](#)" on MotoLyrics.com

Every passing tragic occurrence
Every day I learn of more morbid curiosity
Scaling new heights on the death tolls
Woke up to hear Japan got wiped off the map today
Dying dying dying dying dying screams
Filling my ears and I keep thinking too much
Unconditional fear
Not irrational hear me
I think the end is coming sooner than you think

Five four three

Convince me otherwise and you can not
The signs add up the final day is drawing near
When am I going to be reclaimed
It is never safe to say the world won't end next year
Melting melting melting melting melting down
Rain the radiation spread the glow of death
Unconditional fear
Not irrational hear me
I think the end is coming sooner than you think

Two one zero

Go extinct
Getting closer to going extinct
Go extinct
Getting closer to going extinct
