

Skar "Low"

Visit "[Low](#)" on MotoLyrics.com

So you think you got a problem
Guess what, yeah so do I
I can't deal with these issues
But I'm not gonna let this die

So you think you found a place to
Sit through all of these demands
You think you got all the answers
You thought you had it all planned

Never feel so low
Never feel so low
Never feel so low
Never fucking feel so low

Now you proclaim you are kind
Say you changed your sickening ways
I don't notice any shift though
I don't see a fucking change

Never feel so low
Never feel so low
Never feel so low
Never fucking feel so low

So you think you got a problem
Guess what, yeah so do I
Yeah you, you're my problem
You're the one that ruins my life

Never feel so low
Never feel so low
Never feel so low
Never feel so low
Never feel so low
Never feel so low
Never feel so low
Never fucking feel so low
