The united states has become a cess pool  
Hollywood motherfuckers wade on through  
Stupid spoiled whores and filthy dicks  
Think they're entitled just because there rich

Untouchable due to your social stat  
Get out of jail free because of that  
It doesn't matter how many kids you raped  
When you have billions and wear silver capes

It's a new addiction  
Better than your drugs  
It's a new tradition

Going door to door looking for roles  
Yet all the cocks you'll suck get you no goals  
Every second of your life is shit  
So dig that hole fucker, dig that pit
