"Bringers of Death"

Follow my brothers, through blood, dust, and ash
Savagely, viciously, brutally attack
Bloodthirsty weapons infused with demon rage
The fireguns(?) of battlelust hunt down misery
Cover the earth with dead and dying foes
Axes raised, swords up high deal our crushing blows

Though my body dies my spirit shall return
Resurrected now in my brother's sword
Spirits of battle embody my soul
Unleash the savagery from warriors of old

Bringers of death
Praying for war
Bringers of death
Praying for war

Drink up beside me if we survive this day
In brotherhood and devotion we toast our victory
