I lost her
Gotta let her go
She's gone now
And I'll never know
What I did to mess up so big
All my friends were right
Now she's out of sight

What could I be thinking
This is the end
She won't be
My girlfriend

Left with nothing
But the memory of
What I could've had
Who knew that one girl
Could make me feel so bad

Now She's out with another guy
So I'll just sit here and wonder why

I'd sit up all night long
And talk to you on the phone
You'd fake laugh at my jokes
I hadn't known

But now as things are coming to an end
I see that me and you were only meant to be friends

I lost her

Gotta let her go

She's gone now

And I'll never know

What I did to f*** up so big

All my friends were right

Now she's out of sight

What could I be thinking

This is the end

She won't be

My girlfriend

Thought we could make this workout

But I just let myself down

I'm really gonna miss you

But I gotta say good bye to you
