Hey there what if I told you that there was a girl from  
out of town  
And she is just the thing I'm lookin for  
You there don't get mad at me  
This is not how I chose things to be  
Her smiles pullin me  
And I don't know if I can win

Why does this happen to me  
(Don't take her away)  
How did she get to  
Me so easily  
This girl from out of town

Hey dude what I did tell you about that girl from out of  
town  
How she was all for me and not for you  
That there was all a funny game  
Thought that you'd try harder that way  
I think you should totally go for her

Why does this happen to me  
(Don't take her away)  
How did she get to  
Me so easily  
This girl from out of town
