"Shallow Me"

Everythings changed all ties are strained to say the least.

Concepts deranged

its just the way i see you i only see the real you

You cant shallow me.

I'm jagged as the pill you choke on

You cant shallow me as long as i can see the real you

I cant be blamed to feel this way more and more.

Everythings strange

its just the way i see you i only see the real you

You cant shallow me.

I'm jagged as the pill you choke on

You cant shallow me as long as i can see the real you

I wont let you pull me down i got my shit together now

i wont let you pull me down i got my shit together

its just the way i see you i only see the real you

You cant shallow me.

I'm jagged as the pill you choke on

You cant shallow me as long as i can see

Everythings changed all ties are strained

Everythings strange
