I put all of who I am into who I thought you were
All my trust misplaced into you
And you make me feel pathetic everyday
But I can't pull away from
Could never pull away from

Pull
Away from you I am
Its worth the loss

Unconscious from the pain
I'm lost in your shadow
Can't feel you anymore
Your not apart of me

I'm blindly put through all of this
My life put to the test
You give me pain and I'm breaking down
I feel all the tears you gave everyday
But I can't pull away from
Just need to pull away from you

Pull
Away from you I am
Its worth the loss

Unconscious from the pain
I'm lost in your shadow
Can't feel you anymore
Your not apart of me

Pull away
Pull away from you
Pull away
Pull away from you
