Everything's changed

all ties are strained...to say the least

concepts deranged

It's just the way I see you

I only see the real you

You can't swallow me

i'm jagged as the pill you choke on
you can't swallow me

as long as I can see the real you

I can't be blamed
to feel this way no more

everything's changed

It's just the way I see you

I only see the real you

You can't swallow me
i'm jagged as the pill you choke on

as long as I can see the real you

you can't swallow me

the real you

the real you

I won't let you pull me down

I got my shit together now

I won't let you pull me down

I got my shit together

It's just the way I see you

I only see the real you

You can't swallow me

i'm jagged as the pill you choke on

you can't swallow me

as long as I can see

Everything's changed

all ties are strained (to say the least)

everything's changed
