Psycho, go, go, go  
Psycho, here we go

You push until I break  
And the anger turns to rage  
Why can't you just leave me alone  
Got your finger on the trigger  
You think that you're the winner  
You're gonna get kicked off of your throne

You think you're gonna hurt me  
Get ready to get dirty  
You created this beast inside  
Pull the noose tighter  
And lift a little higher  
Because you're killing me slow  
I ain't ready to die

Killing me slow but I ain't ready to die

Tonight, get ready for a fight  
So now you know it's time  
To ride my circus for a psycho  
Round and round we go, look out below  
Because I want off this  
I want off this

Circus for a psycho  
(Psycho, go, go, go)  
Circus for a psycho  
(Psycho, here we go)  
Psycho, here we go

Everybody down  
Gonna burn it to the ground  
Can't keep this beast inside  
Never again, never again  
You're killing me slow but I ain't ready to die

Killing me slow but I ain't ready to die

Tonight, get ready for a fight  
So now you know it's time  
To ride my circus for a psycho  
Round and round we go, look out below  
Because I want off this  
I want off this

Circus for a psycho  
(Psycho, go, go, go)  
Circus for a psycho  
(Psycho, here we go)

You think you're gonna hurt me  
Get ready to get dirty  
Gonna burn this place to the ground

Tonight, get ready for a fight  
So now you know it's time  
To ride my circus for a psycho  
Round and round we go, look out below  
It's time to ride my circus for a psycho

Never again, never again  
You're killing me slow but I ain't ready to die  
Round and round we go, look below  
Because I want off this  
I want off this

Circus for a psycho  
(Psycho, go, go, go)  
Circus for a psycho  
(Psycho, here we go)

Circus for a psycho  
Circus for a psycho  
(Psycho, here we go)
