"Cycle Down"

Crashing, covered with debris
Dwelling in my own pity
Cry like I have not
Dig like I had not
I start to claw
Gotta get outta here
I've got to, gotta get out

I am, I am, I am on a higher ground
You are, You are my cure from the cycle down [2x]

Sinking in a sea of self
Deception never sold so well
Regret like I have not
Pain like I don't want
I start to claw
Gotta get outta here

I've got to, gotta get out

I am, I am, I am on a higher ground
You are, You are my cure from the cycle down [2x]

Down [3x]

I'm so cold and I wonder
How'd I make it this long without You
Pull me out, out from under
On the cycle back to You

I am, I am, I am on a higher ground
You are, You are my cure from the cycle down [2x]

Down [3x]
