

Skillet "Each Other"

Visit "[Each Other](#)" on MotoLyrics.com

I am yours, you are mine
Believe in you, friend of mine
You're not fading in my eyes
Could you stay? Could you stay? Hey, hey, hey

We must hold onto our faith in each other
We must let go of our pain, yeah, I say
We must hold onto our faith in each other
Gotta still believe in each other

Time is short to live the life
Don't give up, friend of mine
Strength to rise one more time
Could you stand? Could you stand? Hey, hey, hey

We must hold onto our faith in each other
We must let go of our pain, yeah, I say
We must hold onto our faith in each other
Gotta still believe in each other

It's okay to feel weak
It's okay to fall down
It's okay to lose sight
But we gotta believe and stand together

We must hold onto our faith in each other
We must let go of our pain, yeah, I say
We must hold onto our faith in each other
Gotta still believe in each other

We must hold onto our faith in each other
We must let go of our pain, yeah, I say
We must hold onto our faith in each other
Gotta still believe in each other
