It's eating me away
I said to God
It's rotting in my mind
It's like a cancer

Is there anything, anything
At all to numb the nothingness?
I need a reason to breathe
It's eating me away

Save me from my rage
And my humanity
I'm more nothing than being
Is this my legacy?
Feel it eating me away
(Yeah, yeah, yeah, yeah)

Eating me away
It nibbles at my brain
The question of my existence
And the matter of pain

I shake my fist, I shake my fist
At the cosmos and my insignificance
I need a reason to breathe
It's eating me away

All that I am, all that I want
All that I lack
Come on and save me

All that I am, all that I want
All that I lack
Come on and save me

Save me from my rage
And my humanity
I'm more nothing than being
Is this my legacy?
Feel it eating me away

All that I am, all that I want

All that I lack
Come on and save me

All that I am, all that I want
All that I lack
Come on and save me

It's eating me away
Save me from my rage
And my humanity
I'm more nothing than being
Is this my legacy?

Save me from my rage
And my humanity
I'm more nothing than being
Is this my legacy?
Feel it eating me away
(Yeah, yeah, yeah, yeah)
