You alone are what my soul needs
You know the thirst is taking over
Hardly breathe, I'm in urgent need
You know that thirst is taking over
The thirst is taking over

Hold me down, hold me down
Drip it on my tongue
And my convulsions stop
Thirst for love, thirst for your love
I could swallow, Your beauty whole

You alone are what my soul needs
You know the thirst is taking over
Hardly breathe, I'm in urgent need
You know that thirst is taking over
The thirst is taking over

Running out, time's running out
Searching for the one who can conquer me
I'm gonna scream aloud, throw it down
Crash in the sweet obsession of You
I'm gonna swim and drown in the wake of You

You alone are what my soul needs
You know the thirst is taking over
Hardly breathe, I'm in urgent need
You know that thirst is taking over
You know the thirst is taking over

I wanna taste it, I need to taste it
Deep in my Savior's arms
I wanna taste it, I need to taste it
Deep in my Savior's arms
I wanna taste it, I need to taste it
Deep in my Savior's arms
I wanna taste it, I need to taste it

Deep in my Savior's arms
I wanna taste it, I need to taste it
Deep in my Savior's arms
I wanna taste it, I need to taste it

Deep in my Savior's arms

You alone are what my soul needs
You know the thirst is taking over
Hardly breathe, I'm in urgent need
You know that thirst is taking over

You alone are what my soul needs
You know the thirst is taking over
Hardly breathe, I'm in urgent need
You know that thirst is taking over

You alone are what my soul needs
You know the thirst is taking over
Hardly breathe, I'm in urgent need
You know that thirst is taking over

I wanna drink You in
I am drinking You in
I wanna drink You in

I wanna drink You in
I am drinking You in
I wanna drink You in

I wanna drink You in
I am drinking You in
I wanna drink You in

Hardly breathe, I'm in urgent need
You know the thirst is taking over
The thirst is taking over

I wanna taste it, I need to taste it
Deep in my Savior's arms
I wanna taste it, I need to taste it
Deep in my Savior's arms
I wanna taste it, I need to taste it
Deep in my Savior's arms
I wanna taste it, I need to taste it
Deep in my Savior's arms
I wanna taste it, I need to taste it
Deep in my Savior's arms
