When I feel you close to me  
It's easy to believe  
To the depths and back again  
To find that I'm still needing

Feel the fear dissipate  
When you are everything you are  
Feel my soul come awake  
You carry me away

When I hurt, when I bleed  
You're holding me  
Feel you scratching at the surface  
Under my skin

When I hurt, when I bleed  
You're holding me  
Feel you scratching at the surface  
Under my skin

Oh, under my skin  
Oh, under my skin

Oh the sweet serenity  
I'm beautifully addicted  
You are more than I can take  
I crave you undiluted

You calm the ache, I come awake  
When you are everything you are  
Feel the fear dissipate  
You carry me away

When I hurt, when I bleed  
You're holding me  
Feel you scratching at the surface  
Under my skin

When I hurt, when I bleed  
You're holding me  
Feel you scratching at the surface  
Under my skin

Oh, under my skin  
Oh, under my skin  
Oh, yeah

Could I be lost?  
Could I disappear?  
Could I be lost?  
Would you find me here?  
Could I be lost in a secret place?  
Could I rest in the shadow of your face

Oh the sweet  
(Could I be lost, could I disappear?)  
Serenity  
(Could I be lost, would you find me here?)  
Beautifully  
(Could I be lost in a secret place?)  
A part of me  
(Could I rest in the shadow of your face?)

When I hurt, when I bleed  
You're holding me  
Feel you scratching at the surface  
Under my skin

When I hurt, when I bleed  
You're holding me  
Feel you scratching at the surface  
Under my skin

Oh, under my skin  
Oh, under my skin  
Oh, under my skin
