Come to me
Let me hold you
So I can feel you breathe
And see you're real
I will do what you want me to
Cuz tonight is yours
And the world is only you and I
If I try
I know that I can build it for you
Paradise tonight

Chorus
Baby it's just you and I
And we've got the lights down low
Nobody else around
Something so strong inside
And it's all for you
Cuz nobody does like you do girl

You're my everything
Mountain high, river deep
I would go anywhere
I would do anything
To keep you here with me
Even in my dreams
Nothing comes close to you
Talk is cheap girl let me show you
If I try
I know I can build it for you
Paradise tonight

Chorus
Baby it's just you and I
And we've got the lights down low
Nobody else around
Something so strong inside
And it's all for you
Cuz nobody does like you do girl
