"You Take My Rights Away"

Visit "[You Take My Rights Away](#)" on MotoLyrics.com

You take my rights away
You take control, no stopping You
You take my rights away, I can take it

See me let it go You are in control
Suffer as we grow and we say and we say we don't
want to
Holding nothing You take everything
You're worth anything at all, anything at all

You take my rights away
You take control, no stopping You
You take my rights away, I can take it

You take my rights away
You take control, no stopping You
You take my rights away, I can take it

You define me with your identity lose my life in You
I can take, I'll take what it costs me

You take my rights away
You take control, no stopping You
You take my rights away, I can take it

You take my rights away
You take control, no stopping You
You take my rights away, I can take it

You're gonna take my rights away

You take my rights away
You take control, no stopping You
You take my rights away, I can take it

You take my rights away
You take control, no stopping You
You take my rights away, I can take it
