I walk through the desert, hide from the sun
All that I desire is you
Occasional water cools my thirst
All that I desire is you

I dont want to live dying on the inside

I preach so softly, dont feel too content
Apathy whispers makes me think
Am I just another man whose time went past
What does it take to be called great

Dont want to live dying on the inside

Chorus:

Because your love is better than life
Because your voice heals me inside
Because my soul is satisfyed
Because your love keeps me alive
I cannot be silent, Im crying out
Soul is cold,my heart is numb
I break from my old self, step into you
You complete what was never enough
Dont want to live dying on the inside

CHORUS

Keep me alive with the strength to speak
this generation is dying to see
Who you are and how you free
Come Lord Jesus Come

I've seen lots of dead men walking around
Make my heart, Make my heart alive

Chorus x2
