Listen

It's getting late, and I can't wait to spend some time
with you

I'm coming home to be alone, to be alone with you

Turn out the light, let's make it right, take it nice and
slow

Take off your dress, I'll do the rest, I'm coming, get
set, go

Little by little, bit by bit, we'll make our love a perfect fit

Little by little, bit by bit, hold your body next to mine

In the house of love - you keep me up all night

House of love - until the morning light

House of love - we can take our time

We can spend the night in the house of love, yeah

Watching you move I start to lose all my self control

When I'm in your hands I feel a man, so please don't let
me go, no

Little by little, bit by bit, we'll make our love a perfect fit

Little by little, bit by bit, hold your body next to mine

Chorus:

In the house of love - you keep me up all night

House of love - until the morning light, yeah

House of love - we can come back for more

We can spend the night in the house of love, yeah

(Solo)

We gotta make it tonight, yeah yeah

In the house of love - you keep me up all night

House of love - until the morning light

House of love - we can take our time, we can spend the
night

(chorus)

Oh-oh, oh-oh-oh tonight, baby

Oh-oh, I need your love
