Please believe me
I'm estatic for you
Well why should I pretend
I have nothing to lose

No I don't compare
You've got it all wrong now
My sorrows left behind
Let me tell you the truth

Chorus
I feel nothing but
Joy and pride and happiness
Nothing but
Cheerfull face with kindness
I feel nothing but
Oceans of love and forgiveness
For you and your sweet girl

Please ignore the
Particular way I smile
Take no notice of
The blood on the lip I bite
I am still your friend

There is no denying
For you and your new girl
Yes I remember
Everybody has affairs
Oh yeah we had some fun
But she is so perfect for you

I feel nothing but
Joy, and pride, and happiness
Nothing but
Cheerful face with kindness
I feel nothing but
Oceans of love and forgivness
For you and your sweet girl

Please ignore the

Particular way I smile
Take no notice
The blood on the lip I bite
I am still your friend
There's no denying
For you and your new girl

I feel nothing but
Joy and pride
Nothing but a cheerful lie
Nothing but oceans of love
Nothing but...

I feel nothing but
Joy and pride and happiness
I feel nothing but
Oceans of love and forgiveness
For you and your sweet girl

Please ignore the
Particular way I smile
Take no notice
The blood on the lip I bite
I'm still your friend
There's no denying
For you and your new girl

I feel nothing but
Joy and pride and happiness
Nothing but
Cheerful face with kindness

I feel nothing but
Oceans of love and forgiveness
For you and your Sweet girl
Please ignore the
Particular way I smile
Take no notice
The blood on the lip I bite
I'm still your friend
There's no denying
For you and your new girl
