(M. Gray, N. MacDonald)

You gotta shine your light on me, shine your light on me

Gotta shine your light on me, gotta shine your light on me, oh baby

Yeah! Oh oh

Lay down your guns, lay down your swords

No need for sorrow, there's no need for war, no

Open your heart, give me your hand, give me your hand

I'm gonna take you to the promised land

Chorus:

Shine your light on me, shine your light on me, yeah

Shine your light on me, gotta shine a little light

Shine a little light on me

On me

There's blood on the street, and fire in the sky

Don't look away baby, don't close your eyes

Look to the future, just say a prayer, just say a prayer

Times are a-changin', but does anyone care?

(chorus) - yeah

(Solo)

Shine your light on me, gotta shine your light on me

Gotta shine your light on me, oh baby, you gotta shine your light on me

Shine on, shine on, shine on, shine on, shine on, shine on

Shine on, shine on shine on shine on shine on

I said there's blood on the street, and there's fire in the sky

I said don't look away baby, no don't close your eyes, oh no no no

Shine your light on me, shine your light on me, yeah

Shine your light on me, you gotta shine your light on me, yeah
