"Lie In Wait"

Visit "[Lie In Wait](#)" on MotoLyrics.com

You lurk under the sappy leaves
Jump on my leg you sneaky thief
You want to kill
So full
You still eat your fill
You little wanna-be vampire in the green
You dig your teeth into my skin
I have to bear it and grin
You lie in wait
Hidden in the shade
Please give up, stop
You little wanna-be vampire in the green
I run my fingers through my hair
I feel you everywhere
Oops, I can't move
