"Slave The Way"

Visit "[Slave The Way](#)" on MotoLyrics.com

Everybody got their own opinions, right?
Everybody got their own decisions, right?
Everybody got their own ass on the line
Everyone slave the way, pave the way, slave
All the people scream!
Everybody made their own decisions, right?
Everybody made their own opinions, right?
Everybody put their own ass on the line
Everybody got their own religion, right?
Everybody got their own addictions, right?
Everyone slave the way, pave the way, slave
All the people scream!
Falling further and further and further away
Slave the way, pave the way, slave
I can not live when I'm force fed
Slave the way
I can not live when I'm forced in society
Falling further and further and further away
Slave the way, pave the way, slave
Everyone slave the way, pave the way
