"Deeper Than Dumb"

All I need is a miracle
You can feel the fire around us
It's hard to make things over
Words we spoke forgotten at time
What went wrong we don't know
I never want to stand for you
Your eyes hypnotizes me
Your smile freaks me out
What the f#%k if they don't agree
I always eat my heart out.
The real world is lost
I've heard your voice from behind
I felt numb coz I've got deeper than dumb
There's no other real love
That what you have shown me
Coz when you walk by
I think I'm gonna die
By now I'm getting paranoid
The world is so void
None of us want to be the first to say never
Never is such a long, long, long... time!
