"Control You"

Visit "[Control You](#)" on MotoLyrics.com

Call it a ... but you're the babe, call it a pony you like to ride
Call it a job you can get away from but it ain't gonna be alone will be tonight
Cause I'ma make you out of start of control you're like you're a tv
Baby girl don't make me hurt don't but make me worth don't make it easy
I'll probably play you I'll control your mind
With this kind you don't need no energizer or alkaline
Babe I'll control you, when I control you, girl I'll keep on going until you say stop stop stop
Babe I'll control you, remote control, ... take this remote to ...

Call it three clicks and let it take you home
Call it a treat of a dog bone
Call it a plug deep inside your walls
After tonight you gonna call them all
Cause I'ma make you out of start of spin you like ...
Baby girl don't make me hurt don't but make me worth don't make it easy

That's why we rewind
Babe with this kind you don't need no energizer or alkaline
Babe I'll control you, girl I'll keep on going until you say stop stop stop
Babe I'll control you, until you tell this remote to pop

Over your belly ...it's nothing but jelly
And ... whenever Shawty, whenever you want it
Take a about my ... you play with my button
There will be no more discussing after all
Girl I'll keep on going until you say stop stop stop
Babe I'll control you, until you tell this remote to pop, pop, oh, work.
