

D. Brown **"Invincible"**

Visit "[Invincible](#)" on MotoLyrics.com

I think I am bigger than life
I know you are bigger than me
But together girl we have no limit
Every moment is ours
And everything around us is a state
It's just touches the sky we are flawing on
Every time we touch the Earth stands still
When I see your eyes desire they will

Our hearts align so perfectly
The power that you have given me

Make me invincible when I am with me
Don't let the night touch your superman
Invincible and strong your sign and name is on my cap
And now I am invincible
Nature .. with me
What we got nobody can pay for
There is the rarest diamond in the world
I love you.. to my puzzle
