sometimes you gotta laugh to keep you from..  
i can understand that  
that's why i make you laugh

sad that every time i see your face you're frowning up  
your girls are tryna figure you out baby girl what's up  
you're not the same ever since he left your heart there  
all alone  
you stay inside listening to sad songs  
you can't win cos love don't disappear like that  
you call him but it brings those feelings right back  
you wanna talk i hate hearing you sound so sad  
so before you strike a nerve and before you say a word

i try to make you laugh to keep you from thinking about  
your past  
and before you cry you know my number take him off  
your mind  
gotta make you laugh baby girl i love to see you smile  
so to help you forget all about your past  
i gotta make you laugh (laugh, laugh, laugh, laugh)  
before you cry (cry, cry, cry, cry)  
i gotta make you laugh (laugh, laugh, laugh, laugh)  
(yeah) so to help you forget all about your past  
girl gotta make you laugh

i can't get you no time every minute comes  
girl why because you want to (?) like i remember this, i  
remember that  
i try to tell a joke like every morning  
i try to beat the sun up before it comes  
(?) your eyes down before they're done  
you can't win cos love don't disappear like that  
you call him but it brings those feelings right back  
you wanna talk i hate hearing you sound so sad  
so before you strike a nerve and before you say a word

i gotta make you laugh to keep you from thinking about  
your past  
and before you cry you know my number take him off  
your mind

(take him off your mind)  
gotta make you laugh baby girl i love to see you smile  
so to help you forget all about your past  
i gotta make you laugh (laugh, laugh, laugh, laugh)  
before you cry (cry, cry, cry, cry)  
i gotta make you laugh (laugh, laugh, laugh, laugh)  
(whoa whoa yeah) so to help you forget all about your  
past  
about your past i'm gonna make you

fill what you've been missing, i'm gonna give it to you  
(whoa)  
girls like you come one in a million  
and you deserve the best, girl you deserve to laugh

(to keep you from thinking about your past  
and before you cry call my number take him off your  
mind  
gotta make you laugh baby girl i love to see you smile  
so to help you forget all about your past)

i gotta make you laugh to keep you from thinking about  
your past (whoa)  
and before you cry you know my number take him off  
your mind  
(take him off your mind)  
gotta make you laugh baby girl i love to see you smile  
let you forget all about your past  
i gotta make you laugh (laugh, laugh, laugh, laugh)  
before you cry (cry, cry, cry, cry)  
i gotta make you laugh (laugh, laugh, laugh, laugh)  
(oh oh oh) so to help you forget all about your past  
gotta make you laugh
