Miss Secretive

Miss, I don't wanna do this that much

Just say you wanna love me

Talking not that you don't fall in love

You're.. now

And all my friends know now we can't run for cover

When we said that you can handle it

I don't know

The way you gotta taste the... worth seeing it you

Now everybody knows the truth

Chorus:

I turned it down,

but I made her fall

She love me loud

Can't stand hearing this bye bye

It ain't right

She love me loud

Cause I've been in the red,

Now I wish to let

Her love ain't not enough to break first

Can't stand the volume between us now

She loving me now!

You can't get away

Caught up in the base of her heart beat, girl eat away

That when you gotta taste the love we'll see it you

Yeah, now everybody knows the truth! oh, oh

Chorus:

I turned it down,

but I made her fall

She love me loud

Can't stand hearing this bye bye

It ain't right

She love me loud

Cause I've been in the red,

Now I wish to let

Her love ain't not enough to break first

Can't stand the volume between us now

She loving me now!

Lil Play

You already know me!

OK, we're playing under covers

Got a thinking that we're lovers

Gotta tell all our friends

That we're dating one another

She playing with this lethal weapon, call it undercover

It's like every time we chill she be flowing like a hovel

God damn! I know you like whipping what's inside

But we ain't gotta tell Twitter every time we're fucking,

Right?

And every time we hit the... you tell them what you buy

How the hell you're on the low when you keep telling

everybody?

OK, Gucci, Prada, Louis, designer on the bootie

Only talking though I do my.. call it right through me

And I told you about my lady, and told you she was

crazy

If you never hear about it

I'mma tell her that I was faded, I was faded

She loving my car, she's loving my things

In love with him, she's in love with me

She loving my cars, she loving it all

In love with 'em things, she's in love with me

She loving me loud!

She loving my car, she's loving my things

In love with him, she's in love with me

She loving my car, she loving it all

In love with 'em things, she's in love with me

She loving me loud!

Chorus:

I turned it down,

but I made her fall

She love me loud

Can't stand hearing this bye bye

It ain't right

She love me loud

Cause I've been in the red,

Now I wish to let

Her love ain't not enough to break first

Can't stand the volume between us now

She loving me now!
