if your love was a beat i'd put you on repeat x2

you make my days better i need you like the sun
i wanna make you the one
no reason for another second to none
so tell me you're the one
you'll be the one x2
the one

yep yep you are everything i ever dreamed of having in
a girl
from the lip gloss you got to the attitude you rock
i can go circle the world come back
and i still can't find a star that shines as bright as you
more than the moon yeah
i sure wouldn't mind if you were mine
in fact i insist you do

if your love was a beat i'd put you on repeat yeah yeah
you'll never ever leave if you're rocking with me yeah
yeah

i wanna make you the one
you make my days better
i need you like the sun
i wanna make you the one
no reason for another second to none

tell me you're the one
you'll be the one x2
the one
so tell me you're the one

nothing too long let me put you on
grant every wish you ask
cause my loves free and there's no fee
cause you got the backstage pass
every superman needs a lois lane
i don't need a red bull cause you give me wings
i can teach you how to fly please believe
i can be that guy baby garunteed

If your love was a beat i'd put you on repeat yeah yeah

you'll never ever leave if you're rocking with me yeah
yeah

I wanna make you the one you make my days better i
need you like the sun

I wanna make you the one no reason for another
second to none

so tell me you're the one

You'll be the one x2
The one

You're the one
You'll be the one x2
The one the one

So tell me you're the one
