"I Will Not Forget"

Visit "[I Will Not Forget](#)" on MotoLyrics.com

When never enough comes way to soon
Good drums always running out of time
The puzzles just sold in pice by pice
And there is still think you're rating out

If there's just a single thing that I have not forsaken
My bead the only thing that I've come to regret
And deep inside my heart I know I'm not mistaken
Another lesson learned but

I will not forget
And I will not forgive, you
I will not forget
And I will not forgive, you
I will not forget

You looking for word tempteted lies
I'm looking at you and bite my lip
I'm taisting the wines well knowing blood
Denial is a perfect way to die

You got a lipstitch you just can't stop scratching
But the more you wish the more it mumps
And all of this is getting along until I'm coming
And you're finaly give what you deserve

If there's just a single thing that I have not forsaken
My bead the only thing that I've come to regret
And deep inside my heart I know I'm not mistaken
Another lesson learned
I will not forget
