"Sleep Walker"

Your acting like a child
Sleep walking around
And you need to bite down
On something truthful
'Cause your spoonful is watered down

Chorus:
Aren't you tired
'Cause your so tired
And you need to make up your mind

That just drove me to the floor
Always searching for the lies
Don't you want to search further
This time my friend you've gone too far
And I don't see where you are
Don't you know you fit the bill

(Chorus)

How long will you waiver back and forth
Oh wake up sleepy head
And rise up from the dead
Wake up tonight and see the light
